Version 09-2025

Hello,

I am a Senior IT executive with 40 years of practice in my field, providing enterprises with pragmatic, expert-level consulting services in the areas of IT Governance, Enterprise Architecture, Programme and Project Management.

I worked for SWIFT, the Free, Neutral and Liberal Mutualities, RealDolmen, Inno.com and Seco. I joined Touring in 2018, in a role of Program Manager and then of CIO, helping the enterprise to modernize its IT function, increase digitalization, re-inforce cybersecurity after countering a major cyberattack, and execute the transformations required by the recent merger with AG Insurance and BNPPF. I am now assisting the new management team as a strategic consultant, which means that I am available for new transformation missions.

At the core of my profile are strong managerial and technical skills, a pragmatic result orientation, extended relational abilities, and a deep sense of commitment in a transformational and continous improvement approach. My long-standing experience, broad vision and communication skills makes me an expert in aligning the IT strategies with the business needs. My Togaf, Itil, MSP, Prince2, Agile and Six Sigma certifications help me to build my daily practice on strong foundations.

I am usually considered as a strong and reliable person, delivering effective solutions that bring value to the business in a pragmatic and result-oriented way. My broad experience, combined with my analytical and decision making capabilities, allow me to make the difference in complex and rapidly changing environments. My leadership and interpersonal skills enable me to interact with a variety of people at all levels. My personality helps me to operate effectively under stress and difficult conditions, in a reassuring atmosphere of trust and professionalism.

The enclosed resumé provides more detail about my specific knowledge and core competences, along with my professional experience. If this profile is raising your interest, I would appreciate the opportunity to meet you, and explore further collaboration options at your best convenience.

You can contact me

- by phone: +32 475 864 964

- by email: jean-pierre@hogne.com

Hoping to hear from you soon, Best Regards,

Jean-Pierre Hogne

Jean-Pierre Hogne

Personal Profile

Senior IT executive

- 40 years of practice in IT, including 11 years of Operational & Project Management at SWIFT, 9 years of Executive Management at M-Team, 2 years of Business Development and Strategic ICT Consulting at RealDolmen and inno.com, and 3 years as CIO at SECO.
- Currently working for Touring. After modernizing the sales processes using Salesforce in 2018, I assumed
 the role of CIO helping the enterprise to modernize its IT function, increase digitalization, re-inforce
 cybersecurity, and implement the transformations required by the recent merger with AG Insurance and
 BNPPF. I am now assisting the new management team as a strategic consultant.
- Particular focus on IT Governance and Strategy, Enterprise Architecture and Programme Management.
 Powerful helicopter view, articulating a high-level management perspective with the ability to dig into the most intricated technical detail when required.
- Financial management capabilities, budgeting, cost modeling, ICT projects profitability analysis. Strategic management capabilities, developing and negotiating corporate governance plans at the Board level.
- Strong multinational and multicultural exposure, managing teams, projects and vendors in Europe, US and Asia. Support of customers and colleagues worldwide. Long-standing exposure to Oriental cultures.
- Practical experience of outsourcing agreements in Europe, US and Asia, including service definition, vendor selection, service deployment and performance management.

Extensive ICT knowledge

- Robust technical background in software engineering, system programming, telecoms, databases, ICT architecture and security.
- Particular focus on Enterprise Content Management solutions, dematerialisation of administrative logistic chains, automation of business processes and long-term documentary assets archiving.
- Strong IT Governance approach, aligning the enterprise architecture on business priorities and providing end-to-end programme management across organisational, technological and budgetting boundaries.

Strong and reliable person

- Effective inter-personal skills, able to interact with a variety of people from various levels and cultures, and to gain respect from technical people. Ability to align multiple teams on common approaches, arbitrating their specific perspectives towards positive consensus and synergy.
- Powerful analytical and decision-making capabilities. Fast learning, open to change and new ideas, able to acquire competences, integrate into new environments and become operational very fast
- Excellent team player, pragmatic and result-oriented, quickly adopting the most appropriate role to get successful results, including "putting the hands in the dirt" when needed.
- Stable and robust personality, able to operate effectively under stress, time pressure and difficult conditions, establishing an atmosphere of trust and professionalism in the most hectic circumstances.

Education

University of Namur, Belgium (1981 - 1986)

- Master degree in IT Thesis: Artificial Intelligence and advanced programming techniques.
- Bachelor degree in Economic and Social Sciences Specialties: Public Economy and Law.

Special Interests

- Develop e-learning solutions for kids and students, and tools & techniques for family budget management

Digital life

- · Develop websites for the family, friends, and the painting artist Wado
- Develop private extranet to securely share files, calendars, music and pictures with the family
- Write and publish E-books for the Kindle platform

Hobbies

- Japanese martial arts and culture, pratice of karate and aikido since more than 45 years
- Motorbiker during weekends and holidays
- Enthusiastic gardener and do-it-yourselfist

Personalia

- Belgian, born 30-Mar-1963
- Married, 2 big children (civl engineer and lawyer), 2 grandchildren

Knowledge and Competences

Specific Knowledge

Management

- IT Governance, Enterprise Architecture and Programme Management: pragmatic approach based on sound methodologies to align IT with the business, actively manage investments and deliver multi-year projects.
- People management, coaching, negotiation skills, personal effectiveness, creative thinking: robust practical
 experience developed over 30 years.

Information Technology

- Electronic Content Management solutions: dematerialise large-volume document-based process flows.
- Development: object-oriented programming languages & architectures, development & deployment.
- Databases: relational database theory, knowledge engineering, database design and administration.
- Operations: system administration, performance and capacity planning, system programming.
- · Telecom: service management, architecture, protocols, infrastructure design and management.
- · Office Automation: design, installation, management and support of large Mac- and PC environments.

Finance

- International Banking & Financial Markets: working knowledge, developed through various educational and managerial programmes at SWIFT, and through support of SWIFT's back-office applications.
- Particular interest in Financial Management of project-driven business units, developed through specific trainings (Finance for Non-Financial Managers, MCE Brussels, 1996 & 1999), improved by hands-on management of SWIFT's Office Automation budget worldwide, and consolidated by the definition and management of the M-team Operational Plans since 2003.

Security and Audit

- Long-standing interest for security administration & auditing techniques, network security, microcomputer & mainframe security, disaster avoidance and recovery planning.
- Security of health insurance systems: relationship with Belgian medical regulatory instances (Direction Médicale de l'Union des Mutualités Libres, Service d'Etudes et de Contrôle Médical de l'Inami, Banque Carrefour de la Sécurité Sociale)
- Public key infrastructures: deployed fully operational Public Key Infrastructure at SWIFT in 6 months
- Member of the Information Systems Audit and Control Association from 1995 to 2000.
- Brought back Touring online in 1 month after a major cyberattack that affected 250+ servers in 2 datacentres

Languages

- French (mother tongue)
- Fluent English, spoken and written (11 years work experience in English)
- Good Dutch (managing people in French and Dutch since 2003)

Core Competences

Managing

- Strong people manager, mobilising competences, energy and enthusiasm.
- Able to deal with various audiences at all levels inside and outside the organisation.
- Effective negotiation skills, building win-win solutions with the most difficult people.

Delivering

- Extremely strong result-orientation, pragmatic, action-oriented, both feet on the ground.
- Delivers concrete and effective solutions, bringing value to the business.

Transforming

- Powerful change agent, promoting a culture of continued improvement towards greater effectiveness.
- Effectively copes with stress, time pressure, unexpected change of scope and priorities.
- Strong ability to deal with crises, difficult situations, personal issues and aggressiveness.

Thinking

- Strong analytical mind, quickly processing large amounts of complex information.
- · Sound decision maker, taking good and fast decisions.
- Fast learner, combining wide synthetic view with in-depth understanding of technical matters.

Certifications

- TOGAF 9.2
- MSP Foundation
- Prince2 Foundation
- ITIL Foundation
- Scrum Fundamentals
- Six Sigma Black Belt

Professional experience (one-page summary)

Strategic ICT	Strategic ICT Consultant, founder of Zenconsulting.be	10/2017	
Consulting	 Currently working for Touring. After modernizing the sales processes using Salesforce in 2018, I assumed the role of CIO helping the enterprise to modernize its IT function, increase digitalization, re-inforce cybersecurity, and implement the transformations required by the recent merger with AG Insurance and BNPPF. I am now assisting the new management team as a strategic consultant. 		
	CIO, SECO Group Belgium	01/2014 - 08-2017	
	 Brought the IT function under control, reducing obsolescence while cutting costs by 40% vs 2013. Secured critical enterprise data (numeric datasafe, online encyclopedia, enterprise portal). Developed a web portal allowing the sector to certify 20.000 construction projects per year. Developed a mixed web-tablet solution allowing engineers to inspect 2000 construction projects per year. Deployed an ERP solution to improve management while reducing admin costs. 		
	Strategic ICT Consultant, inno.com Belgium	03/2013 - 11/2013	
	 ICT Strategy Consultant providing expert advice to customers in the area of IT governance and the related disciplines of enterprise architecture, programme-, project-, transformation- and change management. 		
	Strategic ICT Consultant, RealDolmen Wallonie	05/2011 - 02/2013	
	 ICT Consultant providing advice to customers in the IT Governance and Strategy areas, and managing projects in the private (insurances, industry) and public sector (Service Public de Wallonie, Hospitals). Commercial prospection and pre-sales. Post-Merger Integration of a subsidiary acquired in Nov-2012

Brussels	I helped the enterprise to modernize its IT function, increase digitalization, re-inforce cybersecurity, and implement the transformations required by the recent merger with AG Insurance and BNPPF. IT governance and strategy, Programme management, Business transformation, Digitalization			
Office de la	Senior Project Manager	05/2019 - 09/2020		
Naissance et de l'Enfance	The ONE wishes to reorganize its information systems and establish methods and tools to ensure it adequately fits its business needs, while extending its boundaries to the beneficiaries, partners (families, structures partnerships) in a context of increased digitalization.			
Brussels	IT governance and strategy, Programme management, Business transformat	ion, Digitalization		
TOURING	ICT Strategy consultant, Programme Manager	10/2017 - 04/2019		
Brussels	governance, right-sized project team, re-established project objectives and us project plan combining Prince2 (direction) and Scrum (execution) methodolo step delivery approach accelerating realization of business benefits, maximi functionalities and decommissionning custom modifications as much as deliveries in September and December 2018 will finalize the company adoption	rer Salesforce implementation program going wildly out of control since 3 years. Restored project nce, right-sized project team, re-established project objectives and user requirements, defined a 1-year plan combining Prince2 (direction) and Scrum (execution) methodologies. Proceeded with a step-bylivery approach accelerating realization of business benefits, maximizing usage of standard package alities and decommissionning custom modifications as much as possible (98% standard). Major is in September and December 2018 will finalize the company adoption of the package.		
Seco Group	IT Director, member of the Executive Committee	01/2014 - 08/2017		
Belgium	Brought the IT function back under control, reducing technical obsolescence, and provided the enterprise withe tools required to conduct its business in the long run. Renewed infrastructures, workstations, tablets at mobile phones (300 users) while reducing operational cost by 40% vs 2013. Developed a web portal allowing the sector to certify 20.000 construction projects per year. Developed a mixed web-tablet solution allowing See engineers to inspect 2000 construction projects per year. Secured critical enterprise data (customer files in numeric datasafe, technical knowledge in an online encyclopedia). Deployed an ERP to improve management while reducing admin costs. IT governance and strategy, Executive management, Business transformation			
inno.com -	IT organisation consultancy	07/2013 - 10/2013		
BNP Paribas Fortis	BNPPF wanted to create an IT Security Shared Services Centre for Belgium, France and Italy entities. The project involved the setup of a services catalogue, the identification of opportunities for synergies, mutualisation and rationalisation, the pre-positioning of key players, the documentation of transition and transformation projects, and the presentation of the resulting business case to senior management, along with a 3-years implementation roadmap.			
	IT governance and strategy, IT organisation, IT roadmaps, Project management	ent		
inno.com -	Post Merger Integration UPS coordinator	06/2013 - 08/2013		
KIALA	KIALA has been acquired by UPS in 2012. The post-merger integration caused a number of organisational and technical issues, and suffered from considerable delays adversely impacting the business. The mission consisted in getting the integration project back on track, documenting the new business processes, producing an IT roadmap, and adapting the roles and responsibilities between Finance, Development and Support teams in order to resolve the backlog and get the business back to cruise mode.			
	IT governance and strategy, IT organisation, IT roadmaps, Business process	modelling, Project management		
inno.com -	IT organisation consultancy	04/2013 - 06/2013		
ING	Faced with major technological and organisational transformations, ING wanted to reorganise its IT Architecture function to provide better support to the business, while increasing its proactivity and effectiveness. Starting with an audit of the Architecture function, the mission delivered recommendations to evolve, re-organise and re-position the function, together with an implementation roadmap aligned with the schedule of the major on going corporate initiatives.			
	Organisational audit, management and organisation consultancy.			
inno.com -	Interim Management IT	04/2013 - 04/2013		
BPOST	In April 2013, BPOST started a feasibility analysis with Oracle to explore possibilities of adapting the existing Siebel platform to new business requirements. The short-term mission consisted in managing the project in the absence of the Chief Architect, who was unavailable due to an accident.			
	absence of the Chief Architect, who was unavailable due to all accident.			

RealDolmen	Post-Merger Integration Alfea coordinator	12/2012 - 03/2013	
	In November 2012, RealDolmen acquired the Alfea Consulting Company, to RealDolmen Wallonie subsidiary created in April 2011. The mission consists integration of both companies.		
	Management, project coordination, project follow-up and reporting.		
RealDolmen -	Project Manager	07/2012 - 12/2012	
Centre hospitalier	ne project delivered an IT Infrastructure Strategy Roadmap that will allow the CHR to drive its technol vestments and operations over the next 5 years, to resolve the existing issues and address the new busin hallenges, in the highly constrained environment of Belgium Public Markets.		
CHR Citadelle	oject Management, interviews and analyses, strategic consulting, roadmap planning and documentat esentation of the results to the Executive Committee.		
RealDolmen	Business Development Strategic IT Consulting	01/2012 - 07/2012	
Wallonie	Design and definition of a Strategic IT Consulting offer allowing RealDolmen the areas of IT Governance, Enterprise Architecture and Program Manager activities by +/- 10 interested customers.
